

Yogi Goswami

Yogi Goswami Granted Fellow ASHRAE

TAMPA, Fla (February 19, 2014) Distinguished University Professor, Yogi Goswami, PhD, PE, was granted Fellow of the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE) at the society's 2014 winter conference in New York City. Professor Goswami is on the faculty of the Department of Chemical and Biomedical Engineering as well as the director of the Clean Energy Research Center.

Fellow ASHRAE is a membership grade that recognizes members who have attained distinction ad made substantial contributions in HVAC&R and the built environment such as education, research, engineering design and consulting, invention, engineer executive on significant projects, publications, presentations and mentoring.

-USF-

The University of South Florida is a high-impact, global research university dedicated to student success. USF is classified by the Carnegie Foundation for the Advancement of Teaching in the top tier of research universities, a distinction attained by only 2.2 percent of all universities. The Carnegie Foundation also classifies USF as a community engaged university. It is ranked 44th in total research expenditures and 34th in federal research expenditures for public universities by the National Science Foundation. The USF System has an annual budget of \$1.5 billion, an annual economic impact of \$3.7 billion, and serves nearly 48,000 students in Tampa, St. Petersburg, Sarasota-Manatee and Lakeland.

The College of Engineering at the University of South Florida is ranked at #69 among public institutions by U.S. News &World Report's 2014 engineering graduate school rankings. The college serves 4,600 students offering ABET-accredited undergraduate degrees in seven programs, as well as eleven masters and nine doctoral degrees. The College is actively engaged in local and global research activities with foci on sustainability, biomedical engineering, computing technology and transportation. For the fiscal year 2012 the college had \$28.3 million in research expenditures.
