Last Lecture Series: Dr. Autar Kaw - Reflections of an Ordinary Man for the Millennial Generation

TAMPA, Fla (July 21, 2014) - Since 2010, USF Housing and Residential Education has been hosting the Last Lecture series. This year on April 10, 2014, Mechanical engineering Professor Autar Kaw gave the Last Lecture in the Oval Theater in the USF Marshall Center.

The premise behind the Last Lecture, which is given by a distinguished faculty, administrator or staff, is if you were to have one last chance to speak to a group, what would your message be? The intention is that a hypothetical ‘last’ lecture will evoke inspirational, engaging and entertaining messages.

A tradition at universities around the country for several decades, the Last Lecture Series program gained popularity in 2007 when computer science professor Randy Pausch gave his last lecture at Carnegie Mellon University, making news around the world and spawning a widely acclaimed book, The Last Lecture.

You can watch Kaw’s last lecture here. (YouTube | Transcript)
The University of South Florida is a high-impact, global research university dedicated to student success. USF is a Top 50 research university among both public and private institutions nationwide in total research expenditures, according to the National Science Foundation.
